Personal Profile Statement

I am currently a second-year student of management at the Wroclaw Economical University. I'm very motivated and focus my efforts into my work. My prior work experience taught me that determination and hard work pays off and so I was promoted to Kitchen manager after only 6 months in my current job and was an employee of the month several times. I was born in Ukraine graduated from secondary school there, then moved to Poland to study in high school and university. All of this makes me a great candidate able to thrive in any diverse international culture as I am very adaptable to any cultural environment. I have full Spanish residence. If you want to know more about my development projects visit my personal webpage

Employment (**describe a little tasks**)-show where promotion happened
